### Writing opportunities within PSHCE

Throughout the programme(s) of study there are opportunities for extended writing for our pupils. The opportunities vary according to the ability of pupils and they are given differentiated writing opportunities. The topics covered in PSHCE enable students to become more efficient writers who can write for a variety of audiences and to assist pupils in acquiring the knowledge and skills to communicate effectively within range of contexts.

As writing is a complex skill that requires teaching and practice, we endeavour to meet our aims by ensuring that pupils are provided with a range of writing experiences within the topics covered.

For Year 7 Trips - please see trip opportunities table.
