

Who Are We?

Project SEARCH is a partnership venture that prepares young people with special educational needs and disabilities for competitive employment. The project provides an opportunity for young people aged 18 to 24 who have a current Education, Health and Care Plan, to complete a one year supported internship.

The programme teaches students transferable skills while completing a variety of job roles. Students also receive classroom based training in employability and independent living skills, to assist with a successful and positive transition into adult life. The aim is for interns to progress into paid employment for a minimum of sixteen hours a week on completion of the programme.
