The Graduation

This original story was written by our own students to include some of the famous Musical theatre show characters they have studied in Dance lessons. The music and songs help to shape the narrative of the story and you may have heard some from your favorite shows. The story is set in Wonka's school of performing arts, West End High, where loads of dancers/singers want to make it on the big stage. The new kids nearly get into the wrong crowd, the naughty Jets and Tbirds and are guided by the friendly Dodger around school. Senior students have exciting news, but Tracy is faced with a tough decision to choose whether to attend Prom or a big audition... the show must go on!

Sit back, sing along and enjoy!
